

 Colours

²The last four continuous digits of the product code (e.g. - 7 0 3 2 -) define its colour according to the RAL palette. Please note that the colour indication is for illustrative purposes only, e.g. code 4111-05-7032 is a colour: 

The digits 0000 indicate the basic colour of the material from which the selected product is made, e.g. an extension arm with code 3751-10-0000 will have the steel colour. 

① Within the framework of an individual quotation it is possible to order a pole in any colour or external graphic.
